Ebony Leather Heated Seats interior, This 2017 Ford S-Max TDCi Titanium has been maintained by only one owner from new, offering a reliable choice for those seeking a well-cared-for family vehicle. As a seven-seat model, this Ford S-Max is powered by a 2.0-litre diesel engine that meets Euro 6 emission standards. The Titanium trim level includes a range of practical technology, such as the Ford KeyFree system with a power starter button for convenient keyless entry. Inside, passengers benefit from dual zone electronic automatic temperature control, while the driver can utilise the SYNC 3 system, which features an 8-inch colour touchscreen, Bluetooth connectivity, and voice control. Manoeuvring is made simpler with the inclusion of both front and rear parking sensors to assist with tight spaces.

This vehicle balances efficiency and performance, achieving a fuel economy of 57 mpg, which helps to keep running costs manageable for longer journeys. The 2.0-litre engine provides steady acceleration, capable of reaching 0-62mph in 10.8 seconds. These specifications make the S-Max a practical option for families who require a spacious interior without compromising on modern convenience or fuel efficiency. By combining these performance figures with the comprehensive suite of driver assistance and comfort features, this model offers a well-rounded driving experience compared to other vehicles in its class.
